### HEBRON – THK

Manufacturing of America has been in Hebron for 20 years, continually expanding its facility and adding employees.

Now, the company's goal is to reach beyond the business community to let young people know about employment opportunities at the Tokyo-based company's local facility, a 425,000 square foot building where 555 people work.

Toshi Sugimoto, president of THK Manufacturing of America, in Hebron, said he hopes the company's outreach increases interest, not just in THK, but in the manufacturing industry.

# Business Partnerships

- Diverse Pool of Job Seekers and Trainees
- Local partnerships provide customized approach to meeting local business needs
- Workforce Efforts/Economic Development
- Skills Based Talent pipeline development-matching skills with jobs-creating a pipeline of job seekers and trainees
- Employer partnerships encourage careers in in-demand areas
