Learning About Your Business

By asking the right questions, we begin our work together with a face-to-face dialogue designed to learn where your business is now and where you want it to be. We use the Synchronist Business Information System® to quickly and efficiently get a sense of the challenges and opportunities your business faces.

Creating and Delivering a Customized Solution

We pull together the best ideas from the Network organizations and then present you with a comprehensive package of customized solutions that are responsive to your company’s needs. You choose the programs and services you want to implement.

Providing Continued Support

A dedicated Business Resource Network representative will manage and coordinate the services you’ve selected from the Network partners and identify new ways to assist your business over time.

The BRN works by:

1. Learning About Your Business
2. Creating and Delivering a Customized Solution
3. Providing Continued Support

What If you could make one call to connect you with dozens of resources that can help your business grow?

What If if you had the brain power of several experts working on a growth plan for your business or to help you meet a challenge?

What If you had one point of contact working hand in hand with you to deliver a package of grants, loans, worker training, and other resources custom designed for your business?

What If you could do this right now with no charge?

You Can!

It’s All Confidential and We Don’t Ask for Proprietary Information

Powerful Partnerships. Stronger Businesses.
