2nd Wednesday Webinar Series

Workforce Success Stories

April 10, 2019

The County Commissioners Association of Ohio (CCAO) are pleased to offer a one-hour webinar on April 10 at 9:30 a.m. on “Workforce Success Stories.”

The webinar will highlight the following workforce programs currently operating in Ohio:

• Mobile Manufacturing Work Crew: A 10-week internship program that exposes young people to manufacturing careers. The program is designed, in part, to help fill the growing number of new manufacturing jobs in the county.

• Career Readiness Endorsement: This program targets students that are not going to college or the military. It combines the OMJ Work Ready Seal with more evidence-based measurements for students to show local businesses they are career ready. Currently, there are eight school districts and more than 30 businesses involved.

Speakers:
Angela Carnahan, Workforce Administrator, Licking County
Rick Szabrak, Workforce Development Board Executive Director, Area 20
