AUGUST 27, 2010	CCC/EAPA REGIONAL MEETING, ROCKY OUTDOOR GEAR STORE, ATHENS COUNTY (NELSONVILLE)
DECEMBER 5-8, 2010	CCAO/CEAO ANNUAL WINTER CONFERENCE AND TRADESHOW, HYATT REGENCY, COLUMBUS

ASSOCIATION NEWS

LENNY ELIASON: NACo PRESIDENT ELECT 2010-11

Athens County Commissioner Lenny Eliason was elected President-Elect of the National Association of Counties (NACo) during the 75th NACo Annual Conference held July 16-20 in Washoe County (Reno), Nevada.

Sworn in at the annual business meeting on Tuesday, July 20, Eliason pledged to work for all counties nationwide to bring county issues to the forefront of the Obama Administration and Congress. In addition, Eliason pledged to work with NACo as an organization to educate, advocate, collaborate, and evaluate their performance on issues and programs to better serve counties.

Also sworn into office with Eliason were President - Glen Whitley, Tarrant County (TX) Judge; 1st Vice President – Chris Rodgers, Douglas County, (NE) Commissioner; and Immediate Past President - Valerie Brown, Sonoma County (CA) Supervisor. Election as NACo President-Elect will mean that Eliason will become NACo President next year at the 76th NACo Annual Conference, which will be held July 15-19, 2011 in Multnomah County (Portland), OR.

COUNTY BULLETIN PROVIDES DATA ON 2009 STATE MOTOR VEHICLE LICENSE TAX DISTRIBUTED TO LOCAL JURISDICTIONS

Attached to this edition of CIDS is Bulletin 2010 – 06 which provides data on state motor vehicle license tax distributed to counties, municipal corporations and townships during 2009. Basic data for this table was provided by the Department of Public Safety, Administration Division, Tax Distribution Section. The bulletin provides a description of the formula for distributing state motor vehicle license tax dollars to counties, municipal corporations and townships. The bulletin also provides a sample illustration of license revenue distribution for a passenger car registration within a municipal corporation and a township based on the state distribution formula. All license revenue figures including totals for jurisdictions within each county and totals by type of jurisdiction have been rounded to the nearest dollar. Due to rounding error, total license revenue may vary from numbers printed on the table.

Any questions regarding the attached bulletin may be directed to Brad Cole, CCAO Managing Director of Research, at (614) 220-7981.

HEALTH CARE REFORM PRESENTATION TO BE HELD AT CCAO OFFICE

CCAO and CEBCO are presenting an informational program on the Health Care and Education Affordability Reconciliation Act of 2010 on July 27, 2010 at 10:00 a.m. at the CCAO office, 209 East State Street, in Columbus. This meeting is open to all counties and is intended to include county commissioners and any applicable staff. The presentation will be given by Toni Donahue, Vice President of Aon Consulting, Inc., and will last approximately two hours.

Please RSVP to Debi Burnette, CEBCO Enrollment & Billing Specialist, at Fax (614) 229-4588 or dburnette@ccao.org. We hope that everyone will consider attending to learn about the new aspects of the Bill and what will be required of counties in the immediate future.

TRANSITION TO CHARTER GOVERNMENT IN CUYAHOGA COUNTY; 2ND WEDNESDAY'S SEMINAR – AUGUST 11

CCAO will be hosting “The Transition to Charter Government in Cuyahoga County” – the fifth in a series of “Second Wednesday’s” seminars – on Wednesday, August 11 at the CCAO Offices, 209 East State Street, in Columbus. Information is attached to this issue of CIDS and is posted on the front page of our website at www.ccao.org.

This seminar will focus on the transition to charter government in Cuyahoga County. Speakers will provide attendees with background information on county charters and alternative forms of county government, the provisions of the Cuyahoga County Charter adopted by the voters of Cuyahoga County in November of 2009, and the issues and opportunities facing the Transition Advisory Group as Cuyahoga County transitions to a charter form of government in January of 2011.

The seminar will begin sharply at 9:30 a.m. and will conclude promptly at 12:30 p.m. Registrations will be accepted only by email. Seminar information is attached to this issue of CIDS and is posted on our website at www.ccao.org. Coffee will be served during the morning and lunch will be on your own. Best of all, no

registration fee will be charged! To register, contact Janet Erwin, CCAO Administrative Assistant, at jerwin@ccao.org.

AFFILIATE NEWS

NEXT 2010 CCC/EAPA REGIONAL MEETING TO BE HELD IN WILLIAMS COUNTY

The County Commissioners' Clerks and Engineer's Administrative Professional Association of Ohio (CCC/EAPA) has scheduled regional meetings to share information and network with other clerks. CCC/EAPA is comprised of county commissioners and engineers' office staff. All commissioners' clerks and engineers' administrative professionals are welcome to network with this most informative organization. The board works hard to provide educational workshops and training opportunities at summer and winter conferences.

Regional information and networking luncheon meetings are a priority with CCC/EAPA. Topics will vary at each of the following meetings which are held on Friday's beginning at 10:00 a.m. until 2:30 p.m. CCAO/CEAO sponsors the lunch.

- **July 30 – Williams County** - Mohre's, 139 West Butler, Bryan, OH 43506
- **August 27 – Athens County** – Rocky Outdoor Gear Store, 45 East Canal Street, Nelsonville, OH 45764
- **September 24 – Franklin County**
- **October 22 – Tuscarawas County**

Please email suggestions for agenda items to Carolyn Hauenstein, Clerk, and Erie County Commissioners at chauenstein@eriecounty.oh.gov or Lisa Hawkins, Clerk, Ashtabula County Commissioners at llhawkins@ashtabulacounty.us. Bring any forms to share that may be useful to other counties.

To obtain additional information on the CCC/EAPA, or if you are interested in serving on one of the committees, please contact Bonnie Green, System Administrator, Lake County Engineer's Office, at (440) 350-2770, bonnie.green@lakecountyohio.gov or www.ccc-esao.org.

Do you have news about your county to share in the County Information and Data Service or County News? Send it to Mary Jane Neiman, CCAO Public Relations Associate, at mjneiman@ccao.org.

STATE ACTIVITIES

NATIONAL REPORT ON JUVENILE JUSTICE USES OHIO PROGRAM AS EXAMPLE OF EFFECTIVE COST-SAVING MEASURE

A national report on youth corrections systems uses an Ohio approach as a best practice to help other states save money but also suggests other ways the state can cut costs while improving outcomes for juvenile offenders. The National Juvenile Justice Network's (NJJN) report (http://njjn.org/media/resources/public/resource_1613.pdf) offers proven strategies that have saved money in other areas of the country as recommendations for the many states that face possible budget shortfalls.

Ohio's use of a fiscal realignment model is among the options presented in the document. Ohio, along with a few other states, has provided incentives to encourage local entities to treat young offenders through community-based programs and decrease the use of juvenile prison beds, thus saving money while improving outcomes for offenders.

The RECLAIM Ohio (www.dys.ohio.gov/dnn/Community/ReclaimOhio/tabid/131/Default.aspx) program was created in 1993 in response to a growing need for local alternatives for juvenile courts and overcrowding in Department of Youth Services (DYS) institutions, according to DHS. Since RECLAIM Ohio's enactment, the number of youth committed to secure state facilities has fallen 42%, the DHS institutional average daily population has decreased from 2,121 in 1993 to 1,077 in January 2010, and the state saves between \$11 and \$45 in commitment and processing costs for every dollar it spends on RECLAIM, according to the report. At DHS, three facilities closed in just over a year, and youthful offenders are more likely to be placed in other options that best suit their needs, according to NJJN.

The NJJN report also suggests states can save money by closing youth correctional centers or lowering detention populations. Officials say research shows institutionalization has harmful effects on children while community-based programs are quite effective. Other suggestions for reducing expenses offered in the report include: focusing on long-term outcomes, establishing a relationship with the state fiscal office to ensure the reliability of cost-benefit data, and creating new partnerships to strengthen advocacy efforts.

AGRICULTURAL EASEMENT PURCHASE PROGRAM HELPS EXPAND FARMING BUSINESS AND CONSERVATION

State farmland preservation funds are doing more than preserving land, according to a recent survey commissioned by the Ohio Department of Agriculture's Office of Farmland Preservation. Results revealed that Agricultural Easement Purchase Program funds are being used to help implement on-farm conservation measures and expand the farm business.

"These funds are going far beyond the physical aspects of preserving agricultural land," said Ohio Agriculture Director Robert Boggs. "They are also helping producers engage in more sustainable practices, which is good for the community, environment and economy."

The Ohio State University Center for Farmland Policy Innovation performed the independent survey, of which 79 of the program's 101 participants responded. A majority of respondents, 91.7 percent, reported that they are satisfied with the program.

More than half of the respondents indicated they are establishing new conservation practices on their farms since receiving funds from the Agricultural Easement Purchase Program. In addition, 23 respondents are diversifying their farming business, and 17 are establishing new or additional farm businesses.

Since the program's inception in 2002, the department's farmland preservation office has received more than 2,400 applications. The department has been able to preserve 172 of those farms, totaling 33,460.37 acres in 33 counties. Funding for the Agricultural Easement Purchase Program is made available through the Clean Ohio Fund, renewed by voters in 2008. The Clean Ohio Fund not only helps preserve farmland but also preserves greenspace, develops recreational trails and cleans up brownfield sites.

For more information on the state's Agricultural Easement Purchase Program or the department's Office of Farmland Preservation, visit www.agri.ohio.gov/farmland.

NOMINATIONS BEING SOUGHT FOR OHIO NATURAL RESOURCES HALL OF FAME

Nominations are now being accepted for the Ohio Natural Resources Hall of Fame, according to the Ohio Department of Natural Resources (ODNR). For the past 44 years, the Hall of Fame has been the state's top honor for individuals who have improved the quality of life in Ohio through natural resources management, environmental education or scientific achievement.

Selection criteria and a nomination form are available on the Internet at www.ohiodnr.gov or by calling (614) 265-6842. Nomination forms must be returned no later than September 3, 2010 to ODNR External Affairs, 2045 Morse Road, Building D-3, Columbus, OH 43229. Successful nominators of this year's Hall of Fame selections will be notified by October 29. Award presentations will be made on December 9 in the Assembly Center at ODNR's Fountain Square complex in Columbus.

FEDERAL ACTIVITIES

SENATOR BROWN TAPPED FOR POWERFUL SENATE APPROPRIATIONS COMMITTEE

U.S. Sen. Sherrod Brown (D-OH) was selected by Majority Leader Harry Reid to serve on the powerful Senate Appropriations Committee. Brown will be seventh Ohioan in history to serve on the committee in its 140+ year history. He will join his colleague Sen. George V. Voinovich (R-OH), who has announced he will retire after this year. A vacancy on the committee was created after long-time Appropriations Committee Chairman Sen. Robert C. Byrd (D-WV) passed away last month.

The Appropriations Committee is responsible for setting funding levels for all federal programs. Because it is one of the most sought-after committees, members serving on the Senate Appropriations Committee often must give up other committee assignments. Brown also serves on the U.S. Senate Banking Committee, where he is chairman of the Economic Policy Subcommittee. He is the first Ohioan to serve on the Senate Agriculture Committee in more than 40 years, where he chairs the Subcommittee on Hunger, Nutrition and Family Farms. Brown also serves on the U.S. Senate Veterans Committee. Brown's appointment must be adopted by the full Senate, which should happen today through a resolution.

OEPA DIRECTOR AIRS CONCERNS OVER FEDERAL POLLUTION REGULATIONS BEFORE U.S. SENATE

Ohio's chief environmental regulator told U.S. senators Thursday that proposed federal air pollution regulations would require unreasonable emissions reductions and tread on states' rights to develop their own approach. Ohio Environmental Protection Agency Director Chris Korleski told members of the U.S. Senate Subcommittee on Clean Air and Nuclear Energy that the state would be hard pressed to meet the sulfur dioxide reductions outlined in the U.S. EPA's Interstate Transport Rule.

The proposal calls for Ohio power plants to cut SO₂ reductions to about 178,000 tons by 2014, he said, noting utilities in the state generated nearly 601,000 tons last year. Previous regulations would have allowed for 233,000 tons by 2015. "Achieving the substantial SO₂ reductions to meet this proposed SO₂ limit will be a difficult task in the timeframe proposed and additional time may be needed," he said in prepared testimony. Conversely, the rule's proposed limits on nitrogen oxides seem unusually slack, he said about the 41,000-ton budget for utilities in 2012. In 2009, Ohio power plants released only 36,000 tons of NO_x.

The U.S. EPA proposed the Interstate Transport Rule earlier this month to prevent upwind states' pollution from hindering downwind states' compliance efforts. SO₂ and NO_x emissions combine in the atmosphere to form fine particles and smog, which can be carried long distances and make it difficult for neighboring states to

attain national clean air regulations. In 2008, a federal court struck down the previous Clean Air Interstate Rule, which allowed facilities to trade emissions credits.

Director Korleski also took issue with the U.S. EPA's plans to use a federal implementation plan (FIP) to implement the rule. Currently states develop a state implementation plan (SIP) that details pollution control measures that will enable it to attain national ambient air quality standards. "Although we understand the need for emission reductions as soon as possible, this appears to usurp the fundamental right of the states to develop their own SIPs," he said. It will take some time for the federal agency to adopt appropriate criteria to approve state plans for the new regulations, he said. "In our view, this 'FIP first' approach is not consistent with the spirit of cooperative federalism imbedded in the essential structure of the Clean Air Act."

He also objected to U.S. EPA's intention to reduce states' emissions budgets each time the agency adopts a new air quality standard, arguing that it would reduce certainty for businesses in planning for emissions control technology. "Finally, we continue to believe that the best approach to reducing SO₂ and NO_x emissions from utilities would include a surgical legislative fix that, while allowing U.S. EPA to mandate a reasonable level of control, would clearly grant U.S. EPA the authority to set up a more comprehensive trading program to allow for more trading opportunities for criteria pollutants," he said.

GRANTS

COMMUNITY-BASED AGRICULTURAL ECONOMIC DEVELOPMENT MINI-GRANTS

Ohio communities seeking to promote the viability of local farms and agricultural economic development are encouraged to apply for grant funding from The Ohio State University's Center for Farmland Policy Innovation. The Center expects to disburse the following mini-grants:

- **Project Grant** - \$50,000 for two or three innovative projects that promote community-based agricultural economic development priorities in local communities.
- **Planning Grant** - \$10,000 for two or three smaller planning grants to focus on community-based agricultural economic development specifically through the community planning process, including creating or revising a community plan to address local agricultural needs and facilitate solutions.

Community-based agricultural development involves community planning, organizing and acting to enhance the health of a community through viable local agriculture. It is a collaborative local effort to retain and grow the benefits of food and agriculture, and to advance sustainable farming. Done successfully, its implementation should yield economic, social and environmental benefits for communities, the Center for Farmland Policy Innovation Director Jill Clark said.

Primary applicants for funding, available through the center's Farmland Protection Partnership Program, must be a governmental or administrative entity in an Ohio county, township, municipality, or non-profit organization. Proposals for projects must include a minimum local match of 50 percent, with at least 25 percent in the form of a direct cash match. Proposals for the smaller community planning grants must include a minimum 25 percent local match, either in cash or in-kind.

"Overall, we have three goals for this program," Clark said. "We want to see successful local projects in Ohio, we want to see innovative programs implemented so localities have examples in Ohio they can follow, and we want to build the capacity of communities to protect farmland and create an environment where local farms can thrive. In the end, we want to help make sure Ohio's No. 1 industry -- farming -- remains viable and locally relevant."

Proposals for project and planning grants are due by 5:00 p.m. on **September 24, 2010**. Applicants should contact the Center for assistance in developing proposals and project budgets. For additional information or for a copy of the Request for Proposals, contact Jill Clark, Director, Center for Farmland Policy Innovation, The Ohio State University, 337 Agricultural Administration Bldg., 2120 Fyffe Road, Columbus, OH 43201, (614) 247-6479, fax (614) 292-0078 or clark.1099@osu.edu or see the center's website at <http://cffpi.osu.edu>.

NACo ACTIVITIES

GREENE & SUMMIT COUNTIES APPLAUDED FOR COMMUNICATION EFFORTS

Congratulations to Greene (4), and Summit (5) counties for winning a total of nine Awards of Excellence sponsored by the National Association of County Information Officers (NACIO). Nationally, over 300 projects were submitted. CCAO is honored that public information projects from Ohio counties are getting national recognition!

2010 NACIO AWARDS OF EXCELLENCE – OHIO RECIPIENTS

Annual Reports

Greene County

Summit County

Best of Class; 9/11 Remembrance Art Project – Darn, Stitch and PEACE (David Kish)

Awards were presented during the 75th Annual NACo Conference held July 16-20, 2010 in Washoe County (Reno), NV. An affiliate of NACo, NACIO was established in 1966 to promote a better public understanding of the functions of county government between the public and its elected officials.

The 2010 NACIO Awards of Excellence cover projects produced and distributed during calendar year 2009. Submissions must be primarily the work of the entrant with outside assistance strictly limited to support functions, such as typesetting and printing. A complete list of NACIO Awards of Excellence Award recipients has been published on NACIO’s website at www.nacio.org. For more information about NACIO, please contact Mary Jane Neiman, CCAO Public Relations Associate and NACIO District Director, at (614) 220-7979 or mjneiman@ccao.org.

PUBLICATIONS

NACo RELEASES NEW PUBLICATIONS ON CIVILITY, SERVICE DELIVERY & CITIZENS IN ACTION

NACo is releasing the following three new issue briefs in time for its 75TH Annual Conference that was held in July 16-20, 2010 in Washoe County (Reno), NV:

- *In Search of Civility;*
- *Going Lean to Save Green: The Role of Privatization in Service Delivery Options;* and
- *Citizens in Action: Tools for Gaining Input.*

Copies are available on the NACo website at www.naco.org/research/pubs/Pages/default.aspx. For more information, contact at Jacqueline Byers, NACo Director of Research at (202) 942.4285 or jbyers@naco.org.

CLASSIFIEDS

ECONOMIC DEVELOPMENT DIRECTOR

The Board of Preble County Commissioners is accepting applications for the full time, unclassified, FLSA exempt position of Economic Development Director. This position markets and promotes the retaining, attracting, expanding and developing of new businesses in Preble County.

Interested applicants must possess the ability to communicate, both written and verbally, with many variables, define and solve problems, collect and analyze and interpret data, establish facts and determine specific action, evaluate and improve process and/or program efficiency and effectiveness.

Applicants must have a Bachelor's Degree in Economic Development, Business Administration, Marketing or related area and preferably post graduate degree in related field plus minimum of five years related work experience demonstrating competence in economic development, marketing, management and prior supervisory experience.

A salary range of \$44, 220.80 to \$61,193.60 and a full range of benefits are offered.

Applications and a job description can be obtained at the Office of the Board of Preble County Commissioners, 101 East Main Street, Eaton, OH 45320. Application deadline: **July 30, 2010**. EOE.

CLASSIFIED ADS

CCAO publishes the County Information and Data Service (CIDS) weekly. Classified ads will be published free of charge as a service to counties. Ads will run for two weeks if space is available. Ads will also be published on the CCAO website at www.ccao.org. When submitting your ad to CCAO please provide a link to the job posting online and a deadline. Please provide a copy of the classified ad by 5:00 p.m. on Wednesday of each week. Transmit the copy to Mary Jane Neiman, CCAO Public Relations Associate, by e-mail at mjneiman@ccao.org

STATE MOTOR VEHICLE LICENSE TAX DISTRIBUTION

State motor vehicle license tax is assessed on the vehicle classes listed in ORC sections 4503.04, 4503.042, and 4503.65 and at the rates specified therein. Vehicle classes subject to the tax include passenger cars, house vehicles/mopeds, motorcycles, house trailers/travel trailers, transit buses, non-commercial trucks, commercial trailers/semi-trailers, commercial trucks/tractors, non-commercial trailers, commercial buses, and farm trucks. The tax is collected throughout each month, and distributed to counties, municipalities and townships in the following month. Prior to making these distributions, two deductions and one addition are made to the base license tax amount. First, 42.6% of the tax for commercial vehicles weighing more than 26,000 pounds is transferred to the Highway Operating Fund. Second, a recurring monthly amount is paid to the State Bureau of Motor Vehicles Fund to cover administrative costs. Finally investment dividends posted to the fund are added, and the total is distributed to the local government entities as follows:

34% District:

34% of license revenue is distributed to the municipal corporation or county of registration

47% County:

47% of all license revenue collected is distributed to the county in which the resident resides

9% County Road Mileage:

9% of the total state license revenue collected is distributed to each county based on the ratio of each county's road mileage compared to the total number of county road miles in the state.

5% Township Road Mileage:

5% of the total state license revenue collected is distributed to each township based on the ratio of each township's road mileage compared to the total number of township road miles in the state.

5% Equal:

5% of the total state license revenue collected is distributed equally among all counties.

Illustration of License Revenue breakdown for a municipal passenger car registration of \$20.00

License Fee	34% Distributed to Municipality	47% Distributed to County	9% Distributed to all counties based on county road mileage	5% Distributed to all townships based on township road mileage	5% Distributed equally to all counties
\$20.00	\$ 6.80	\$ 9.40	\$ 1.80	\$ 1.00	\$ 1.00

Illustration of License Revenue breakdown for a township passenger car registration of \$20.00

License Fee	34% Distributed to County	47% Distributed to County	9% Distributed to all counties based on county road mileage	5% Distributed to all townships based on township road mileage	5% Distributed equally to all counties
\$20.00	\$ 6.80	\$ 9.40	\$ 1.80	\$ 1.00	\$ 1.00

Note: Ohio participates in the International Registration Plan (IRP) for commercial trucks. Commercial trucks based in Ohio and other states pay a prorated tax based on the ratio of the mileage traveled in Ohio to total mileage. The revenue depicted in the table includes IRP excess revenue.

For simplicity of presentation, all license revenue figures including totals for jurisdictions within each county and totals by type of jurisdiction have been rounded to the nearest dollar. Due to rounding error, total license revenue may not add up to numbers depicted on the table.
