Another change is the hotel room blocks. The headquarters hotel will be the Hyatt Regency. The Sunday night reception, Monday night karaoke reception, hospitality suites, and a block of hotel rooms are at the Hyatt Regency. Additional blocks of hotel rooms have been held at the Crowne Plaza, Drury Inn, and the Hampton Inn & Suites. Hotel reservation information is located on the conference registration form. LOCAL GOVERNMENT INNOVATION FUND PUBLIC COMMENT PERIOD – OPEN UNTIL NOVEMBER 18

The Local Government Innovation Fund (LGIF) was established to provide direct financial resources for planning and short-term financing to implement planned projects. The fund consists of \$45 million to be awarded in the form of grants and loans to political subdivisions for local government innovation projects. Funds will be awarded to projects that promote efficiency, shared services, coproduction, and mergers among local governments. Projects are also expected to facilitate improved business environments and promote community attraction.

The opening Local Government Innovation Council meeting was held November 3, 2011. At this meeting, the Council outlined the framework for the program and discussed policies and procedures. Program information is now available online for public review at <http://www.development.ohio.gov/Urban/LGIF.htm>. The Local Government Innovation Council would like your feedback on the direction of the program as well as any comments or suggestions you may have. **The public comment period is open now through November 18, 2011.**

FEDERAL ACTIVITIES

SENATE PASSES MINIBUS: NACo SUCCESSFULLY DEFEATS SEVERAL AMENDMENTS

The Senate approved, by a vote of 69 to 30, a collection of three appropriations bills or “minibus” on November 1. H.R. 2112, the FY 2012 Agriculture, Rural Development, FDA and Related Agencies Appropriations Act was the vehicle that was amended to include the FY 2012 Commerce, Justice, Science and Related Agencies, and Transportation, Housing and Urban Development, and Related Agencies Appropriations bills.

The passage of the minibus led to the first appropriations conference in two years on November 3. However a deal between the House and Senate on the \$128 billion domestic spending “minibus” was not reached last week. Final passage must now wait until the week of November 14, because the House was in recess this week. Final passage is likely, but House GOP leadership may need Democratic votes as some GOP members are likely to demand deeper discretionary spending cuts. For more detailed information, go to www.naco.org/legislation/Documents/minibus%20conferees%20ltr%20 2 .pdf

SENATE LOOKING TO TAKE UP THREE PERCENT WITHHOLDING

After the resounding vote by the House to repeal the 3 percent withholding requirement, attention turned to the other side of the Hill as repeal supporters wondered how soon before the Senate took up the bill. There were several reports that the Senate would take up repeal legislation last week. There were additional reports of a budding proposal from Majority Leader Harry Reid (D-Nev.) that would still require withholding on payments to contractors that are already delinquent on their taxes. Such an amendment would still call for state and local

governments to divert scarce resources towards implementation. For more information, contact Mike Belarmino, NACo Associate Legislative Director, at (202) 942-4254 or mbelarmino@naco.org

HOUSE PASSES WIRELESS TAX MORATORIUM

On November 1, the House passed by voice vote, H.R. 1002, the Wireless Tax Fairness Act of 2011. Introduced by Rep. Zoe Lofgren (D-Calif.), the bill would ban state and local governments from imposing “discriminatory” taxes on mobile services or companies for five years. The bill defines discriminatory as any taxes that are higher than those generally imposed on other companies or services. Taxes already in place before enactment and taxes to support E-911 systems and universal service programs are exempt.

NACo, along with other state and local government groups, has opposed the legislation as it represents an unnecessary intrusion on state and local taxing authority. If enacted, the intrusion would come at a time when many state and local governments continue to face fiscal challenges. Currently, whether or not the Senate will take up the bill for consideration is uncertain. Nonetheless, NACo will continue to fight the efforts to preempt state and local taxing authority over the wireless industry.

Please contact Ohio Senators Brown and Portman and urge them to oppose S.543. For more information, read NACo’s Fact Sheet on Preferential Tax Treatment for Cell Phones at www.naco.org/legislation/policies/documents/finance%20and%20intergovernment%20affairs/mb%20%20--%20%20pref%20tax%20treatment.pdf

BROWN INTRODUCES LOCAL FARMS, FOOD & JOBS ACT

On November 1, Senator Sherrod Brown (D-Ohio) and Rep. Chellie Pingree (D-Maine) introduced the Local Farms, Food, and Jobs Act (S. 1773, H.R. 3286). The bill is a comprehensive package impacting various agencies and programs at USDA. Sponsors are pushing for inclusion of the bill’s components in the next Farm Bill. The bill is intended to help farmers and ranchers by addressing production, aggregation, processing, marketing, and distribution needs to access local and regional food markets. The bill also includes provisions that seek to address access to healthy food. NACo supports some provisions within the bill, such as improved access to local, healthy food and increased rural development investments, but does not have policy on many of the provisions or the overall bill.
