ASSOCIATION NEWS

FIVE CCAO BUDGET BRIEFINGS PLANNED IN AUGUST

County commissioners, county executives and county council members, their chief staff members, and OSU Extension are invited to attend one of the five [budget briefings](#) and updates to be held around the state.

The state operating budget traditionally impacts counties more than any other legislation enacted during a General Assembly, and this year was no different. HB 64

provides funding to Ohio's counties and, moreover, enacts many other policy provisions impacting counties. OSU Extension and the College of Food, Agriculture and Environmental Sciences will join CCAO for these meetings sharing program, staffing, and organizational updates.

Mark your calendars and plan to attend one of the five CCAO Budget Briefings for county commissioners, County Executives/Council Members, chief staff members, and OSU Extension. The same agenda will be presented at each location. The sessions begin promptly at 9:00 a.m. and end at 2:30 p.m. Lunch will be provided. There is no charge to attend. **Pre-registration is necessary.**

OAG CERTIFIES MARIJUANA-RELATED STATUTE PETITION

This week, the Ohio Attorney General's Office certified the petition for the Fresh Start Act, a proposed initiated statute. On June 24th, the Attorney General's Office received a written petition for an initiated statute, entitled "Fresh Start Act," from the group Responsible Ohio. The submission was certified as containing both the

necessary 1,000 valid signatures from registered Ohio voters and a “fair and truthful” summary of the proposed law.

Once the summary language and initial signatures are certified, the Ohio Ballot Board must determine if the proposal contains a single law or multiple laws. The petitioners must then collect signatures for each proposed law from registered voters in each of 44 of Ohio’s 88 counties, equal to 1.5 percent of the total vote cast in the county for the office of governor at the last gubernatorial election. Total signatures collected statewide must also equal 3 percent of the total vote cast for the office of governor at the last gubernatorial election. Once signatures are verified by the Ohio Secretary of State, the Ohio General Assembly has four months to act upon the proposed law. If the proposal is not passed, the petitioners have an opportunity to gather the same number of signatures to have the proposal placed on the ballot.

OAG AND 46 ATTORNEYS GENERAL URGE CONGRESS TO PRESERVE STATE AUTHORITY OVER DATA BREACH LAWS

Ohio Attorney General Mike DeWine Tuesday joined 46 other attorneys general in asking Congress to maintain states’ authority to enforce data breach and data security laws and preserve their ability to enact laws to address future data security risks. Citing recent efforts in Congress to pass a national law on data breach notification and data security, Attorney General DeWine and the other attorneys general sent a letter to Congress cautioning against federal preemption of state data breach and security laws and arguing that any federal law must not diminish the important role states already play in protecting consumers from data breaches and identity theft.

In 2012, Attorney General DeWine created a consumer Identity Theft Unit to help victims rectify the effects of identity theft. Since its creation, the unit has received more than 3,300 complaints and helped to adjust or clear approximately \$900,000 from consumers’ accounts. While a data breach does not always lead to identity theft, it can put individuals at greater risk.

In their letter to Congress, DeWine and the attorneys general write: “Our constituents are continually asking for greater protection. If states are limited by federal legislation, we will be unable to respond to their concerns.” [Click here](#) for a copy of the letter.

Anyone needing help addressing a data breach, identity theft, or other consumer problem should contact the Ohio Attorney General’s Office at www.OhioAttorneyGeneral.gov or (800) 282-0515.
