Gov. DeWine Press Conference

In today's press conference, Gov. DeWine announced that, beginning tomorrow, Ohio will align with the CDC's current case definition for antigen tests and allow them to be included in case counts without additional verification. Ohio currently has 12,600 positive antigen tests pending in the queue. These cases will be reported tomorrow and will result in a one-day spike. Moving forward, the combined case numbers will be reported, but positivity rates by test type will be available.

Gov. DeWine issued a statement today strongly urging Congress to pass a COVID-19 relief package before the holiday recess. To read the statement, click [here](#).

Lt. Gov. Husted announced the launch of the DataOhio portal, which provides more than 200 datasets and more than 100 interactive visualizations. The goal of the portal is to provide data to inform public policy and other data-driven decisions. The portal can be found at data.ohio.gov.

As your county decides how to spend its CARES Act funds, please share your ideas with the CCAO policy team. Your ideas can serve as valuable examples to other counties considering different funding options. Please send any resolutions or spending plans to Jon Honeck at jhoneck@ccao.org.
